

Sabbir Chowdhury

Tech Lead | Full-Stack Web Developer (React | Next.js | Node.js)

sabbirchowdhury40854@gmail.com | +8801617837797 | Bangladesh | [Portfolio](#) | [GitHub](#) | [Linkedin](#) | [Certificate](#)

Skills

Frontend: React.js, Next.js, Redux, Tailwind CSS, ShadCN, Styled-components, Framer-motion.
Backend: Node.js, Express.js, Nest.js, REST API, Prisma, JWT, MongoDB.
Language: JavaScript (ES6+), TypeScript.
Database: MongoDB, PostgreSQL.
Cloud & Tools: AWS S3, Firebase, Supabase, Git, GitHub, GitLab, Postman, VS Code, Vercel, Netlify.
Payment Integration: PayPal, Razorpay, Stripe, SSLCommerz.

Experiences

Tech Lead Remote | 2026 - Current
EYWNK

- Led a 3-member development team, managing sprint tasks, reviewing 20+ pull requests weekly, and ensuring high-quality code delivery.
- Automated Binance P2P profile operations that reduced manual operational work by 6–7 hours per day.
- Engineered an AI-powered posture analysis platform using MediaPipe Pose Detection that analyzes 4 body posture metrics and includes Competitive scoring with a leaderboard system.
- Contributed to system architecture and feature planning for 5+ product features, resolving complex technical issues to maintain stable deployments.
- Mentored 3 junior developers, improving development workflow efficiency and reducing feature delivery time by ~25%.

Full-Stack Web Developer Remote (India) | 2024 - 2025
REMOVEQ TECHNOLOGY PRIVATE LIMITED

Tigsaw - ([Live](#))

- Unified and revamped full-stack web applications through Next.js, Prisma, and PostgreSQL, elevating overall performance and backend response times by 20%+, obtaining an A rating on speed tests.
- Designed and built 30+ reusable responsive UI components using ShadCN, Tailwind CSS, and Framer Motion, improving UI consistency across the platform.
- Developed 15+ RESTful APIs and integrated payment gateways (PayPal, Razorpay) with upgrade & renewal plans, enabling seamless subscription management.
- Pioneered a no-code visual editor reminiscent of GrapesJS, empowering users to intuitively compose components, which slashed manual design efforts by 80% and accelerated project delivery for the team.
- Collaborated in Agile workflows (daily stand-ups, sprint planning, code reviews), ensuring timely delivery of high-quality features and reducing bugs by 10%.

RemoveQ - ([Live](#))

- Integrated Supabase Auth to implement secure login, registration, and session handling for 1000+ platform users.
- Developed a responsive analytics dashboard with 15+ interactive UI modules, featuring optimized loading states and smooth frontend interactions.
- Built scalable file upload and storage system using AWS S3, supporting images, videos, and documents with secure cloud storage and faster uploads.
- Optimized file upload workflows, reducing upload failures by 30% and improving file processing performance.
- Resolved 5+ critical bugs and delivered multiple product enhancements per sprint, improving platform stability and user experience.
